Pacific Coast Highway (SR-1) Bridge Repair Continues

LONG BEACH – The California Department of Transportation (Caltrans) construction crews are repairing the Pacific Coast Highway (SR-1) bridge over the Terminal Island Freeway (SR-103). A semi-truck collided with several steel support girders.

Caltrans will reduce northbound Pacific Coast Highway (SR-1) to one lane from Sunday, September 25 at 7 p.m. until late October 2011. The speed limit in the construction zone will be reduced to 30 MPH.

Between 10 p.m. and 4 a.m. intermittent closures may occur on northbound SR-1 to restripe, and remove and install steel girders under the bridge. A signed detour will be in place.

Caltrans reminds motorists to “**Slow For The Cone Zone.**”
